## **2026 Budget Message**

October 23, 2025

Plaquemines Parish Council:

As Parish President, I herewith submit to you the Proposed Operating Budget for 2026 and the Proposed Capital Improvement Budget for years 2026 through 2030.

As required by Sections 7.03 and 7.05 of the Parish Charter and the Local Government Budget Act, this Proposed Budget includes a complete fiscal plan containing the following:

- Budget message
- General budget summary
- Detailed estimates of revenues
- Detailed estimates of expenditures
- 5-Year capital improvement plan
- Manning/organizational tables
- Delinquent taxes
- Current and projected retirement fund obligations
- Statement of indebtedness
- Adoption ordinances

The budget of the general, special revenue, and capital project funds utilize the modified accrual basis of accounting under which revenues are recorded when measurable and available to finance operations during the year. Expenditures are normally recorded when the liability is liquidated. Budgets of the enterprise funds utilize the accrual basis of accounting under which revenues are recorded when earned, and expenses are recorded when the liability is incurred. The budget basis of accounting does not materially differ from the financial report.

The 2026 total ending fund balance proposed for the General Fund is \$79,462,702 - of this total, the fund balance reserves and designations are \$74,092,566 and the Unreserved/Undesignated Fund Balance is \$5,370,136.

As predicted, the budgeted sales tax revenue budgeted for 2026 decreased by \$3,000,000 compared to 2025. Therefore, in order to maintain existing budgets, the Parish will have to continue experiencing

large-scale construction projects to generate more sales tax revenues, increase other revenue sources, including user rates and fees, or substantially decrease expenses.

Merit increases for classified employees and a 3% cost of living increases for unclassified employees are included in this proposed budget.

When the pollution control millage was not renewed, the Parish lost over \$2 million in annual revenues. This loss of revenue compounded with the existing water and sewerage funding deficits will require the Council to transfer \$3.3 million from other sources in 2026 to meet our critical maintenance and infrastructure needs to provide basic water and sewerage services to our residents and businesses.

Due to the decrease in budgeted revenue, some funded projects had to be unfunded to balance my proposed budget; however, I deem the Repairs to Highway 11 from Diamond to Triumph project critical and ask you to fund it from existing designations.

Since the EMS Department was removed from the Fire Fighting Fund several years ago, the General Fund has transferred more than \$3 million each year to sustain the EMS Department. This proposed budget transfers all EMS operations and personnel to the Fire Fighting Fund. This transfer did not affect budget requests from the fire department; there was an excess of revenue to fund EMS. EMS services are essential for our citizens' health and well-being, and it is time that the Council endeavor to establish a recurring dedicated funding source for these life and death services.

This proposed budget prices oil at \$55.00 per barrel and gas at \$4.30 per mcf, which results in a \$2,634,180 decrease from 2025 projected revenues. The decreases over the past decade remain significant. The following table illustrates the point:

	Actual		Budget	
	2013	2014	2024	2025
Oil, per barrel	\$102.00	\$94.35	\$70.00	\$55.00
Gas, per mcf	3.18	3.88	2.45	4.30
Revenue	42,461,701	36,619,410	7,938,600	5,304,420
Decrease from 2013		(5,842,291)	(34,523,101)	(37,157,281)

Due to decreasing oil and gas and sales tax revenues, the Parish cannot fund all the positions and departments that were eliminated over the past several years. For the Parish to continue providing vital services to our people, the Administration recommends diversifying its economy, improving infrastructure, and continuing Port expansion to encourage positive economic growth and a broader range of revenue sources.

Our Economic Development Director has initiated numerous efforts to generate new revenue and to market Plaquemines Parish as a premier destination for business investment by highlighting our unique quality of life, business friendly environment, natural resources and other assets. While preserving our strong sense of local identity and community connection, these goals are being pursued through reinvigorating our master plan, developing sustainable infrastructure, securing grants and assistance from NGOs, partnering with private property owners to implement LED's site certification program, and collaborating with our small businesses to increase customer engagement.

Hurricanes and other disasters, including saltwater intrusion, continue to have a substantial financial impact on parish budgets. The Administration recommends maintaining significant designated fund balances to cover the Parish's cost share of past and future recovery projects. Obligated amounts and cost shares for hurricane projects are subject to change, which presents the potential for a negative impact on Parish fund balances. The Council will be provided with the relevant information as it becomes available.

This proposed budget includes \$10,000,000 in the Fund Balance Designated for Bond Indebtedness for future bond payments. Annual debt service payments for long-term bonded debt, principal and interest, have increased by \$7,690,978 since 2012. These payments total \$11,894,877 for 2026.

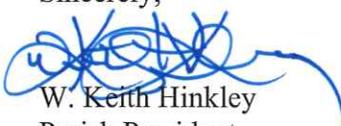

Basic services continue to increase significantly due to supply chain issues and inflation, especially construction costs. As a result, the Parish is experiencing operating deficits in several of the special revenue and enterprise funds; therefore these funds require transfers from the General Fund as follows:

Special Revenue Funds:	
Road Maintenance	\$2,824,490
Public Health Fund	852,824
911 Services	605,010
Enterprise Fund:	
Boat Harbors & Shipyards	683,016
Total	<u>\$4,965,340</u>

The Boat Harbors & Shipyards Fund continues to experience an operating deficit and a notable decline in fund balance. To maintain the current level of services without raising fees and charges, this proposed budget includes a transfer of \$683,016 from the General Fund to the Boat Harbors & Shipyards Enterprise Fund. Enterprise funds are used to account for business-type activities which include services funded through user charges and fees. As a matter of financial accountability, enterprise funds should be self-supporting. Our state mandated auditors have raised this issue for multiple years now, which will eventually lead to a negative finding.

The current 2025 General Fund Capital Improvement Budget, not including FEMA projects, includes approximately \$45 million of funded expenditures for over 50 capital improvement projects. Unless otherwise noted, the unexpended budget for all projects will be carried forward to the 2026 budget.

As you review this budget during the next few weeks, please contact my office with any questions or suggestions; this will facilitate efficient and effective budget hearings. I look forward to working with each of you to review this 2026 proposed budget for adoption prior to the new fiscal year.

Sincerely,  
  
W. Keith Hinkley  
Parish President
