

Public Notice

September 12, 2023

Watercraft Advisory: All watercraft should be on alert for potential hazards from dredging operations in and around Rojas Canal from September 12, 2023 – October 7, 2023. This safety alert reminds recreational boaters and commercial vessel operators to use caution when operating their vessels near areas where dredging operations may be taking place. Operators should always be on the lookout for floating debris and unmarked hazards and operate at a speed that allows them to see and avoid the hazards.
