### **Plaquemines Parish Council Allocates \$1.5 Million for Highway 11 Road Rehabilitation Project**

**Plaquemines Parish, LA**– The Plaquemines Parish Council has approved a significant appropriation of \$1.5 million towards the essential rehabilitation of Highway 11. The project, aimed at enhancing road safety and infrastructure, is a crucial investment in the community's transportation network.

Contractor Otwell Services mobilized on April 8, 2024, to commence work on the project. The affected stretch of Highway 11 spans from Empire to Buras, encompassing vital sections of roadway crucial for local commerce and daily commutes.

The rehabilitation efforts are projected to be completed between May and June 2024, pending favorable weather conditions and unforeseen circumstances. During this period, members of the public are advised to expect partial lane closures. To ensure smooth traffic flow, detour signage will be strategically placed to guide motorists along the best available routes.

Plaquemines Parish Government extends its sincere appreciation for the community's cooperation and understanding during this period of construction. While every effort will be made to minimize disruptions, the Parish apologizes for any inconvenience that may arise as a result of the ongoing roadwork. Together, we are committed to building a safer and more resilient transportation infrastructure for all residents and visitors.
